Question: 222

You can use Stackdriver to monitor virtual machines on which cloud platforms?

- A. Google Cloud Platform, Microsoft Azure
- B. Google Cloud Platform
- C. Google Cloud Platform, Microsoft Azure, Amazon Web Services
- D. Google Cloud Platform, Amazon Web Services

Answer: D

Question: 223

To minimize the risk of someone changing your log files to hide their activities, which of the following principles would help? (Select 3 answers.)

- A. Restrict usage of the owner role for projects and log buckets.
- B. Require two people to inspect the logs.
- C. Implement object versioning on the log-buckets.
- D. Encrypt the logs using Cloud KMS.

Answer: A,B,C

Question: 224

If network traffic between one Google Compute Engine instance and another instance is being dropped, what is the most likely cause?

- A. D. firewall rule was deleted.
- B. The TCP keep-alive setting is too short.
- C. The instances are on a default network with no additional firewall rules.
- D. A firewall rule was deleted.

Answer: D

Question: 225

Which of the following practices can help you develop more secure software? (Select 3 answers.)

- A. Penetration tests
- B. Integrating static code analysis tools into your CI/CD pipeline
- C. Encrypting your source code
- D. Peer review of code

Answer: A,B,D

Question: 226

Which two places hold information you can use to monitor the effects of a Cloud Storage lifecycle policy on specific objects? (Select 2 answers.)

- A. Cloud Storage Lifecycle Monitoring
- B. Expiration time metadata
- C. Access logs
- D. Lifecycle config file

Answer: B,C

Question: 227

If you have object versioning enabled on a multi-regional bucket, what will the following lifecycle config file do?
{ "lifecycle": { "rule": [{ "action": { "type": "Delete" }, "condition": { "age": 30, "isLive": true } }, { "action": { "type": "SetStorageClass", "storageClass": "COLDLINE" }, "condition": { "age": 365, "matchesStorageClass": ["MULTI_REGIONAL"] } }] } }

- A. Archive objects older than 30 days (the second rule doesn't do anything)
- B. Delete objects older than 30 days (the second rule doesn't do anything)
- C. Archive objects older than 30 days and move objects to Coldline Storage after 365 days
- D. Delete objects older than 30 days and move objects to Coldline Storage after 365 days

Answer: C

Question: 228

Which of the following statements about Stackdriver Trace are true? (Select 2 answers.)

- A. Stackdriver Trace tracks the performance of the virtual machines running the application.
- B. Stackdriver Trace tracks the latency of incoming requests.
- C. Applications in App Engine automatically submit traces to Stackdriver Trace. Applications outside of App Engine need to use the Trace SDK or Trace API.
- D. To make an application work with Stackdriver Trace, you need to add instrumentation code using the Trace SDK or Trace API, even if the application is in App

Answer: B,C

Question: 229

You have been asked to select the storage system for the click-data of your company's large portfolio of websites. This data is streamed in from a custom website analytics package at a typical rate of 6,000 clicks per minute. With bursts of up to 8,500 clicks per second. It must have been stored for future analysis by your data science and user experience teams. Which storage infrastructure should you choose?

- A. Google Cloud SQL
- B. Google Cloud Bigtable
- C. Google Cloud Storage
- D. Google Cloud Datastore

Answer: B

Question: 230

You want to optimize the performance of an accurate, real-time, weather-charting application. The data comes from 50,000 sensors sending 10 readings a second, in the format of a timestamp and sensor reading. Where should you store the data?

- A. Google BigQuery
- B. Google Cloud SQL
- C. Google Cloud Bigtable
- D. Google Cloud Storage

Answer: C

Question: 231

You have been asked to select the storage system for the click-data of your company's large portfolio of websites. This data is streamed in from a custom website analytics package at a typical rate of 6,000 clicks per minute. With bursts of up to 8,500 clicks per second. It must have been stored for future analysis by your data science and user experience teams. Which storage infrastructure should you choose?

- A. Google Cloud SQL
- B. Google Cloud Bigtable
- C. Google Cloud Storage
- D. Google Cloud Datastore

Answer: B

Question: 232

You want to optimize the performance of an accurate, real-time, weather-charting application. The data comes from 50,000 sensors sending 10 readings a second, in the format of a timestamp and sensor reading. Where should you store the data?

- A. Google BigQuery
- B. Google Cloud SQL
- C. Google Cloud Bigtable
- D. Google Cloud Storage

Answer: C

SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version is up to date and contains actual questions and answers.***

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

Actual Exam Questions: *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

Exam Dumps: *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

Practice Tests: *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

Guaranteed Success: *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

Updated Content: *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

Technical Support: *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
